Foreign National DSCR – Investment Property Only, continued

Income, continued	• Refinance Transactions: ○ Required documentation: ▪ Original appraisal report reflecting tenant-occupied, and ▪ FNMA Form 1007 or 1025 reflecting long-term market rents, and ▪ Executed lease agreement ○ Leases that have converted to month-to-month are allowed. ○ If lease agreement is not provided, LTV/CLTV is limited to lesser of 70% or the DSCR/FICO/Loan balance matrix. ○ Monthly Gross Rents are determined by using the actual lease amount or estimated market rent from 1007/1025. Monthly gross rent is to be evaluated for each unit individually. ▪ If using the lower of the actual lease amount or estimated market rent, nothing further is required. ▪ If using a higher actual lease amount, evidence of 2-months of receipt is required, and the lease amount must be within 120% of the estimated market rent from the 1007/1025. If the actual rent exceeds the estimated market rent by more than 120%, the rents are capped at 120%. ▪ If using a higher estimated market rent from 1007/1025, it must be within 120% of the lease amount. If the estimated market rent exceeds the lease amount by more than 120%, the estimated market rent is capped at 120%. ○ A vacant property as indicated on the appraisal is allowed subject to the following: ▪ LTV/CLTV limits: Lesser of 70%, or the LTV/CLTV based upon the DSCR/FICO/Loan balance matrix. ○ Unit subject to rent control or housing subsidy must utilize current contractual rent to calculate DSCR. • DSCR Calculation: ○ Debt Service Coverage Ratio is the Monthly Gross Rents divided by the PITIA (or ITIA) of the subject property. See this matrix for required Debt Service Coverage Ratios. ○ PITIA: Gross rents divided by PITIA = DSCR ○ ITIA: Gross rents divided by ITIA = DSCR Short-Term Rental (e.g., Airbnb, VRBO, FlipKey) Documentation and DSCR Calculation Short-term rentals are properties which are leased on a nightly, weekly, monthly, or seasonal basis. • Short-Term Rental Income – Purchase and Refinance Transactions: ○ LTV is lesser of 70% for a refinance, or the LTV based upon the DSCR/FICO/Loan balance (Excludes Condo Hotel projects). ○ DSCR Calculation: ▪ Monthly gross rents based upon a 12-month average to account for seasonality required. ▪ Gross rents reduced by 20% to reflect extraordinary costs (i.e., advertising, furnishings, cleaning) associated with operating short-term rental property compared to non short-term property. If the rental documentation referenced below includes expenses, actual expenses should be compared to the 20% expense factor. If actual expenses are less than 20%, a minimum 20% expense factor is required to be utilized. If actual expense exceeds 20%, the actual expense factor should be used. ▪ PITIA: (Gross Rents * .80) divided by PITIA = DSCR ▪ ITIA: (Gross Rents * .80) divided by ITIA = DSCR • When short-term rental income is documented using multiple sources, the lowest source of monthly income is to be utilized for calculating DSCR. • Any of the following methods may be used to determine gross monthly rental income: ○ Short-term rental (STR) analysis form or 1007/1025 may be used, must include the following: ▪ Provide the source of the data used to complete the STR analysis. ▪ Include comparable STR properties, focusing on room count, gross living area (GLA), location, and market appeal. ▪ Include daily rental rate and occupancy percentage. ▪ Factor seasonality and vacancy into the analysis. ▪ Must be completed by a licensed appraiser. ○ The most recent 12-month rental history statement from the Third party rental/management service. ▪ The statement must identify the subject property/unit, rents collected for the previous 12-months, and all vendor management fees. The qualifying rental income must be net of all vendor or management fees. ○ The most recent 12-month bank statements from the borrower/guarantor evidencing short-term rental deposits. Borrower/guarantor must provide rental records for the subject property to support monthly deposits. ○ AIRDNA Rentalizer/Property Earning Potential Report accessed using the Explore Short-Term Rental Data, must meet the following requirements: ▪ Rentalizer (Property Earning Potential Report) ○ Only allowed for purchase transaction ▪ Gross rents equal the revenue projection from the Property Earning Potential Report less the 20% extraordinary expense factor ▪ Forecast period must cover 12-months and dated 90-days within the Note date ▪ Must have three (3) comparable properties similar in size, room count, amenities, availability, and occupancy ▪ Market Score or Sub-Market Score must be 60 or greater as reflected on the Property Earning Potential Report
